

Fair Vote Canada

FairVote.Ca

Going to an All-Candidates Meeting? Got candidates at your door?

Let's get fair voting on their agenda! Some questions you can ask:

- Do you agree that all votes should count equally?
- Do you agree that, as far as possible, Canadians should be represented by people they actually voted for?
- Do you agree that a political party that gets 40% of the votes should win 40% of the seats in Parliament?
- Do you agree that a political party that gets 10% of the votes should win 10% of the seats in Parliament?

Or to come at it from the other angle:

- Is it acceptable to you that a political party that gets 40% of the votes can form a "majority" government?
- Is it acceptable to you that most Canadians are "represented" in Parliament by people they voted against?
- Is it acceptable to you that most Canadians live in "safe" seats and already know who will be elected in their riding before the votes are cast?
- Is it acceptable to you that elections are decided under our current system by a few swing voters in a few swing ridings?

And ask for commitment:

- What will you and your party do to ensure that every vote counts in Canadian elections, no matter how we vote or where we vote?
- What will you and your party do to ensure that Canada gets a modern, fair, proportional voting system before the next federal election?

If we want politics to be different, we need a vote that makes a difference.
